Plug Into your Imagination! Explore new mediums such as video game art, rice painting, newspaper watercolor and a sculpture made with straws! We will visit a lollipop garden; we will play on a watercolor piano; we will celebrate the Festival of Lights and more. We will even interface with famous artists such as Fernand Léger and Alberto Giacometti!

Children develop their creativity through carefully designed lessons that ignite the imagination and develop skills. Using real artists' materials including watercolors, tempera paints, oil pastels, creative tools and more, children create masterpieces that are truly unique.

We exceed the national standards for art education!
